

EJGC Planting areas

Cold Orchard

24th May 2022

Cold Orchard is an east-facing slope with good views over town and sea, visible from a good part of Old Town.

This site is suitable for fruit trees and shrubs that will tolerate a cooler aspect.

We have assumed that there will be a high level of looking-after available for this space, and therefore that trees can be planted at 4 metre spacings, so ~25 to a space.

Space	Planting
C01	30 plums, 50 thornless blackberries at front edge
C02	30 plums, 50 thornless blackberries at front edge
C03	20 cooking apples, 20 honeyberries at front edge
