

EJGC Planting areas

Warm Orchard

24th May 2022

Warm Orchard is a south-facing slope with lovely views over town and sea. The other side of the avenue will be a shrubby thicket with some small trees.

This site is suitable for fruit trees and shrubs that like a warm and open aspect. It is also an excellent place to sit out in summer.

We have assumed that there will be a high level of looking-after available for this space, and therefore that trees can be planted at 3 metre spacings, so ~40 to a space.

Space	Planting
WO1	5 Cornus kousa in front, 35 sweet cherries behind
WO2	5 Cornus mas in front, 35 sweet cherries behind
WO3	30 plum in the front, 10 Sorbus domestica behind
